Make It Yourself.

There is so much rheumatism here in our neighborhood now that the following advice by an eminent authority, who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer:

Get from any good pharmacy one half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces of Compound Syrup Sarsaparilla, Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases. Every man or woman here feels that their kidneys are not healthy and active, or who suffer from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

LIVE STOCK AND CROP NOTES

—A pair of mules were withdrawn at a sale in Ashland at \$675.

—Eggs from the best of two-year-old layers are considered best for hatching.

—D. B. Chatham, of Harrodsburg, sold sixty bushels of clover seed in Lexington last week at \$8.50 a bushel.

—An argument in favor of a variety of food is found in the fact that no two animals will give exactly the same results from the same rations.

—While there is a great advantage in securing good blooded stock, the profits of the herd or flock depends equally as much on the care as the blood.

—A farmer's ability is no longer rated by the horse power he can wield, brute force is now supplanted by brain power on the farm as well as in other callings.

—In Germany the vaccination of cattle against black leg, a fatal disease, is becoming general and very effective, as only three losses in five years are reported.

—To sell corn off the farm sells the fertility off the place, but fed to the stock it returns a double profit, in fattened cattle and hogs and in manure.

—In the vicinity of Lonohe, Ark., about 6,000 acres of prairie land were planted to rice and the yield was about 4,000,000 bushels of rice, valued at \$500,000.

—Mark it down as a safe rule that the bleating calf lacks something in the way of food water or care to insure its comfort. However there are calves that will bleat almost continuously and for no other reason apparently than because they are of that uneasy, restless spirit which marks them as undesirable to raise for dairy products. Get rid of such animals.

—Lord John Russell held farming in high esteem. He said: "In a moral point of view, the life of the agriculturist is the most pure and holy of any class of men; pure, because it is the most healthful, and vice versa hardly find time to contaminate it; and holy because it brings the Deity perpetually before his view, giving him thereby the most exalted notions of supreme power, and the most enduring view of the divine benignity."

—At Georgetown court day the horse and mule market was better than at any time for months past, but the cattle market was very dull. About 200 cattle were on the market, but very few changed hands. One bunch of 18 head, averaging about 1,000 pounds, brought \$4.62 per hundred. Another bunch of scrubs brought \$4. Gentry and Thompson, of Lexington bought thirty odd mules at prices ranging from \$125 to \$200. Ward Lutes, Lexington, bought about half a dozen head of cotton mules at from \$100 to \$150.

Names Claimed by Bourbon Trainer.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe obstinate, hang-on, chronic coughs, bronchitis and pulmonary troubles, and chronic sore throat, whooping cough, in acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or tucks.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

Want Tobacco Farmers in Ohio.

Handbills advertising for experienced tobacco growers to go to Ohio to raise white burley tobacco were scattered among the crowds at the tobacco warehouses in Lexington Saturday. These advertisements, it is understood, were issued by the American Tobacco Company, and are being distributed by the agents of the trust through the Burley tobacco district of Kentucky.

The bills state that all experienced tobacco growers who will go to certain sections of Ohio will be furnished with as much land as they care to handle on which to plant tobacco and will be given every assistance and encouragement in raising the crop.

The Society of Equity people claim that this action is a bluff on the part of the trust to scare the Burley growers of Central Kentucky and back up those who claim that if a crop is not raised here in 1908 it will be raised in other States and develop a rival territory for the production of tobacco.

It is reported, however, that a number of tobacco tenants of Fayette county have decided to accept the offers held out and will soon move to the tobacco district of Ohio.

There are no newsboys in Spain; women sell newspapers on the streets.

Two hundred designs for cheap toys are turned out by London factories weekly.

The Chrysanthemum.

Both in China and Japan is the chrysanthemum a great favorite. It is said that Chinese gardeners to whom the plant was first known will allow nothing to deter them from its culture. They will even give up their situations if forbidden by their employers to grow it. Chinese emigrants, too, take this "flower of their hearts" with them to other lands and cultivate it affectionately in their exile as a reminder of their native country. There is a Chinese "Everything comes to him who knows how to wait" which has been Anglicized as follows:

In the second month the peach tree blooms.
But not till the ninth the chrysanthemums.
So each must wait till his own turn comes.

Fighting Geese.

In Russia pits for cock fighting are unknown, but "goose pits" some sixty years ago were common throughout that mighty kingdom. The effect of this can be seen today in the geese which are indigenous to the country. The Arsamas and the Tula varieties particularly showing to a marked degree the fighting characters of their ancestors. The Arsamas gander has a bill which is entirely different in form from that of the geese known in any other part of the world. This special structure enables the bird to take a firm grip on the neck or back of its antagonist.

The Dear Friends.

Clara (exhibiting photograph)—How do you like it?
Hattie—It's perfectly lovely!
"You think it a good likeness?"
"Oh, no; it doesn't look a particle like you, you know. But I wouldn't mind that, Clara. You are not likely to have such wonderful luck again if you sat a thousand times!"—London Telegraph.

A Remedy.

"Yes," said Quigleys, "I have a good deal on my hands just now."
"So I perceive," replied Fogg. "Why don't you try a little soup and water?"—London Answers.

Too Well Prepared.

Knicker—Preparedness is the best preventive of war. Bocker—Nonsense! When a girl engages herself to ten men it doesn't ward off matrimony.—Harper's Weekly.

No Genius.

Blotbs—Would you consider him a genius? Slobs—No. Blotbs—Why, he's always trying to borrow money. Slobs—Yes, but he doesn't get it.—Philadelphia Record.
